

Athish Ramesh

Embedded Engineer

Address: Coimbatore | **Date of birth:** 09-03-2003 | **Phone:** +(91) 9123518842

LinkedIn: [Athish Ramesh](#) | **Email:** athishrc@outlook.com | **Website:** portfolio

Skills

Programming

Embedded C/C++, Python, CaPL, PRACTICE

Standards & Protocols

AUTOSAR, UDS (ISO 14229), MISRA C compliance, ASPICE, CAN, CAN TP, CAN FD, I2C, SPI, UART

Tools and IDE's

Lauterbach TRACE32, Vector CANoe, DaVinci Configurator, Logic Analyzer, GHS MULTI, CS+, S32 Design Studio, LDRA

Build Tools & Version Control

IAR Embedded Workbench, CC-RH850, Make, Git

MCU's and Architectures

NXP S32K3 series, Renesas RH850 P1M-C, Tiva TM4C, ARM Cortex-M

Experience

Ettiksoft Technologies | Engineer

Coimbatore, TN | Sep 2024 - present

- Engaged in development of **HSM for RH850 P1M-C** where primarily focused on configuring hardware **AES Engine** for Encryption, implementation of CMAC, SMR, Timer and Scheduler.
- In 3 months, Collaborated with a 3-person team to integrate the **Cyber security feature Secure Boot using HSE in S32K324** and was responsible for preparing the complete requirement and test specification documents, as well as performing testing.
- Engaged with the Electric power steering team, responsible for static code analysis of ADC modules and Makefile setup for complete project along with **debugging in TRACE32**.
- Collaborated with a 3-person team to develop an **in-house bootloader** compliant with the **AUTOSAR** standard for lightweight vehicles (3-wheelers), primarily focusing on the integration, implementation and testing of **UDS**.

Ettiksoft Technologies | Intern

Namakkal, TN | Nov 2024 - Aug 2024

- Experience working with Tiva TM4C and Nuvoton M032 Mcu's.
- Developed drivers - Timers, PWM, UART, CAN, ADC/DAC and interrupts.
- Worked in fabricating automotive test systems.

Salem Steel Plant | In-plant Trainee

Apr 2022

- 7 days in-plant training focused on Mechanical Maintenance.
- Gained insights into the SSP ecosystem.

Education

Sri Krishna College of Engineering and Technology | BE - Mechatronics

2020-2024

- Cumulative GPA: 8.49
- Relevant Coursework: Embedded Systems, Micro-controllers and Internet of Things
- Activities: Finalist in national level hackathon (**SIH**).

Projects

IoT enabled AGV

Developed a complete IoT-enabled smart track AGV from concept to prototype, integrating

Virtual Laboratory

Developed an immersive virtual environment aimed at enhancing student comprehension of Ayurvedic

sensors, actuators, and mcu for autonomous operation. studies.

Additional Information
